

GoodAuction Access (GAX)

Utility Token for the GoodAuction Ecosystem

Whitepaper Version 2.0

BNB Smart Chain (BEP-20)

1. Executive Summary

GAX is a fixed-supply utility token on BNB Smart Chain designed for access and participation within the GoodAuction ecosystem. The platform is under development.

2. Problem

Many tokens lack real utility and transparency, resulting in low trust and short-term value.

3. Solution

GAX introduces a transparent, fixed-supply token with gradual utility integration.

4. Current Status

Contract deployed, liquidity active, trading pair established (GAX/WBNB). Liquidity is currently limited.

5. Utility (Planned)

GAX will provide access to premium features, tier systems, and platform interactions in future updates.

6. Token Overview

Supply: 1,000,000,000,000 | Fixed | No Mint | Burn Enabled | Pause Enabled

7. Tokenomics

Liquidity 3% | Ecosystem 25% | Reserve 25% | Operations 15% | Community 12% | Partnerships 10% | Team 10%

8. Security & Trust

Built on OpenZeppelin standards. Admin controlled with future multisig plans.

9. Risk Disclosure

Crypto assets involve risk including volatility and liquidity limitations.
